INFORMATION BOARD

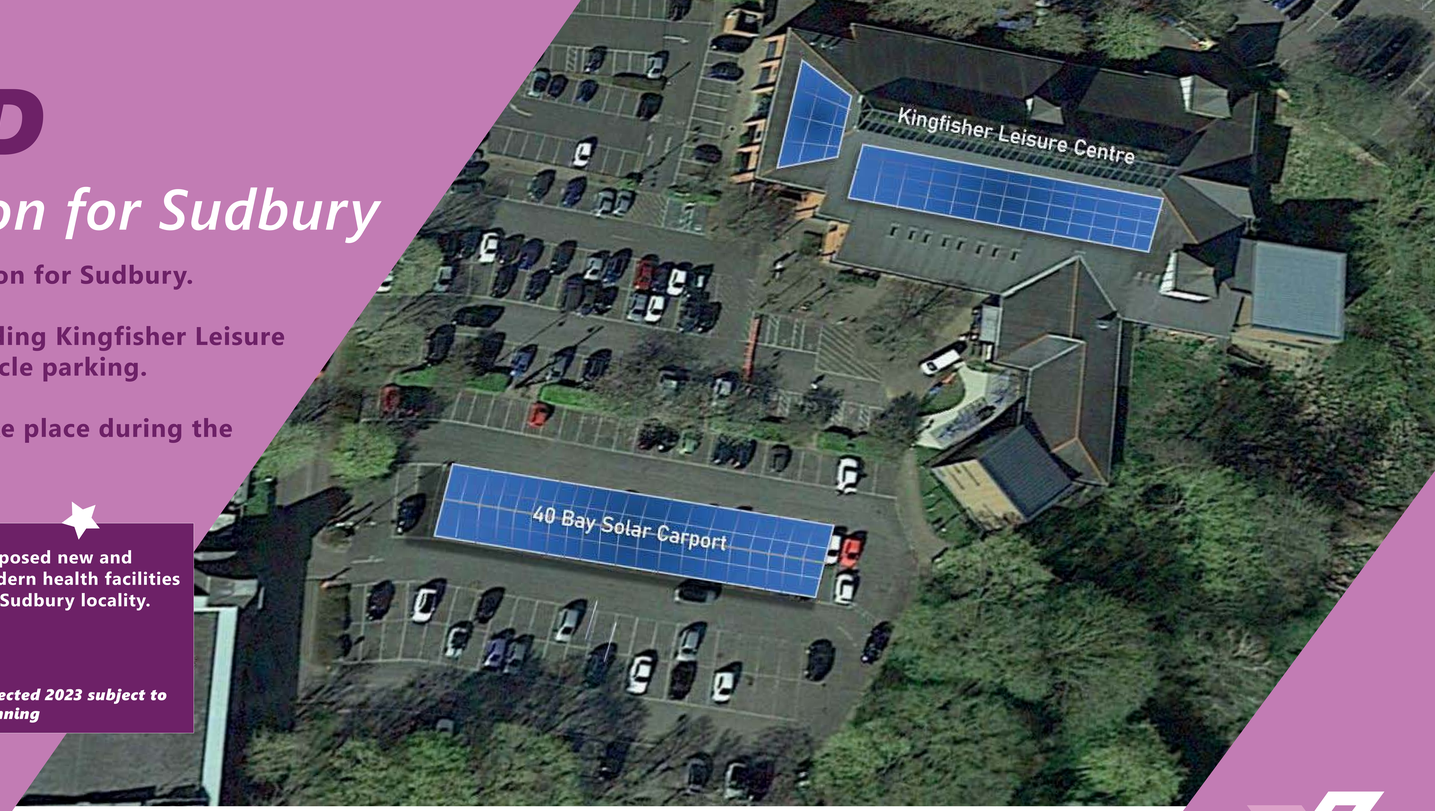
Working in partnership to deliver a vision for Sudbury

Local partners in Suffolk are working together to help regenerate and deliver a vision for Sudbury.

Millions have already been invested in improving and extending key facilities including Kingfisher Leisure Centre, Gainsborough's House, St. Peter's Cultural & Community Venue, and new cycle parking.

And now, further multi-million pound improvements and works are expected to take place during the next few years as follows:

- **Solar car ports to help power Kingfisher Leisure Centre and new EV charging points.** ***Expected Autumn 2021 to Spring 2022***
- **Installing green measures, including solar panels, to help power Kingfisher Leisure Centre.** ***Expected Autumn 2021***
- **Car park improvements, including machines and signage.** ***Expected 2022/23***
- **Improvements for wayfinding, active travel, town centre users and businesses.** ***Expected 2022***
- **Proposed new and modern health facilities for Sudbury locality.** ***Expected 2023 subject to planning***



We're working hard to minimise any unnecessary disruption in the town while works are ongoing, and appreciate your understanding and patience while we deliver a long term vision for the town. **You can find out more about all the projects at:**
