

The **caring dads** programme

The Caring Dads programme will help fathers:

- Learn about how different ways fathering affects children
- Learn about strengthening the father-child relationship
- Learn about controlling, abusive and neglectful attitudes and behaviours
- Develop skills to cope in a healthy way with frustrating situations.

Monday 9th May
1.30pm - 4.30pm

Council Chamber, Babergh District Council, Corks Lane, Hadleigh, Ipswich

Babergh are hosting this event to raise awareness of this programme that has a demonstrable track record of helping perpetrators of domestic violence come to terms with and tackle their behaviour. We are seeking to build on this awareness event and will look to recruit staff from a range of agencies to help run this programme in future – with your help and the support of your organisation we can start to work directly with perpetrators and help victims.

Dermot Brady, Programme Manager, will be sharing with us this unique programme, which will enable us to support fathers in Suffolk.

Inspector Terry Jones will be talking about the first pilot programme currently running in Lowestoft and sharing the feedback from those in attendance.

To book your place please contact Cathy Press on **07966 592632** or email cathy@compass-ion.org

Refreshments will be provided
