Introduction to Pre-Application Advice

Pre-Application Options

The pre-application advice service is designed to offer a variety of different options based on the type and scale of development you are considering, with three main choices for planning advice:

1. a written response
2. a meeting to discuss the proposal, with a written response following the meeting,
3. a meeting on-site to discuss the proposal, with a written response following the meeting

Heritage Advice

If you are seeking advice about works to a Listed Building you can also choose to have Heritage advice, either instead of, or along with, Planning advice.

Consultee Advice

We work closely with consultees, and your pre-application enquiry can include Heritage, SCC Highways, SCC Floods, Ecology, Landscape, Affordable Housing and Infrastructure. You can include these consultees as part of your enquiry (depending on the type and scale of your proposal). We would recommend seeking Heritage advice for proposals which include works to a Listed Building for example.

All enquiries which include a commercial aspect will be referred to our Economic Development Department for their advice.

All enquiries which include house extensions/alterations, and residential up to 9 dwellings will be referred to our Building Control Department for their advice.

All enquiries which include residential development over 10 dwellings will be referred to Suffolk County Council Infrastructure for their advice on the necessary infrastructure requirements for the proposal.

How to Choose your Pre-Application Service

1. What type of development are you proposing?

Firstly you need to know what development you would like advice about, an extension, new house, commercial or residential development? If the works are solely to a listed building you may wish to seek heritage advice only, or if it includes extensions or other works which might also need planning permission you may wish to seek both planning and heritage advice.

2. With this information in mind you also need to decide what type of advice you would like:

We offer several variations to offer the most bespoke service we can, this does mean not all types of advice are available for all types of proposal, please look at the options in the tables below, you can ask for:

- a written response
- a meeting to discuss the proposal, with a written response following the meeting,
- a meeting on-site to discuss the proposal, with a written response following the meeting

3. With this in mind look at the fee tables below:

For a written response see Table 1, a meeting, see Table 2, or an on-site appointment see Table 3. Please note that the options available depend upon the scale of your proposal.

4. What will it cost?

Looking at the table for the type of pre-application advice you would like, select one of the options in the top row, for example if you would like written advice and your proposal is for an extension then the fee is £102.

Next consider any additional advice required, for example if you need highways this is available for extension proposals and adds a further £90.

For each additional consultation you choose the fee should be added to create the total fee for the enquiry. These may not all be available, depending on the scale of your proposal.

Advice can either be sought 'in principle' for this or detailed advice can be sought, subject to plans, photographs and other information being provided as requested. The advice provided will be based on the information provided, the more information that is provided the more advice can be given.

A meeting (in the office) or an on-site appointment can be requested, however this is at the discretion of the Heritage Officer subject to the proposed works.

Table 1: Discharge of Condition Advice (including VAT)

Discharge of condition:

Pre application advice on a discharge of condition application is now available, whereby we will offer you advice on your DOC prior to application submission, working closely with consultees, we will endeavour to provide a written response within 28 days of the pre application being validated.

A DOC pre app may benefit you, should you need advice on what is needed to discharge your condition. If the information submitted is not sufficient in order to discharge the condition, the DOC pre app will allow us to work with you to obtain the correct information when submitting the formal application.

Please note the fee is per condition type. If you have conditions surrounding more than one area, you will be charged for each area. For example, if you have 1 ecology condition and 1 Highways condition you will pay £150.00 for both. If you have more than one condition per type ie; 2 conditions for ecology, please ensure you outline this within the form and you will receive advice on both conditions.

This does not exclude you from formally submitting- formal submission will still be required after pre app response is provided.

Discharge of Condition	Charge per condition type
Written Response	£75.00

Table 2: Heritage Advice (including VAT)

Heritage Advice Only	All proposals for works to Listed Buildings
Written Response	£330.00
Virtual Meeting & Written Response	£420.00
Meeting on Site & Written Response	£552.00
